Plans Almost Completed For Big Fair and Carnival

LARGE CROWD IS EXPECTED TO ATTEND THE
RACES AND OTHER AMUSEMENTS TO
BE PULLED OFF NEXT WEEK

Those in charge of the Yale fair are very busy this week on advertising and plans to make this the biggest exhibition held in this part of the state, and from present indications, if the weather man is good on Wednesday, Thursday, Friday and Saturday of next week, we will have one of the biggest crowds in the history of our little city.

There will be horse races, auto races, motorcycle races, base ball games, athletic sports and many other sporting events which will prove interesting to all.

Among the free attractions booked are "Michigan Wild Life," an educational feature which was at the State Fair; Zeno and Zeno, aerial artists; Barnum Wire Act; Dog and Pony Show; Scotch piping and dancing; balloon ascension and other attractions.

For the kiddies there will be a Merry-go-round, Ferris wheel, and whip, and everything possible will be done to give the children a good time.

Cattle, horses and live stock of all kinds can be entered for show at the grounds up until Tuesday night, Sept. 26.

There will also be a big night carnival each evening. Free attractions and a big display of fireworks.

In the Ford free-for-all race, all entries are to be made with Jack Cowan, at Yale Sales and Service. Also entries for Ford Tractors.

Entries for the Field day sports can be made at the Fair grounds. These entries close Sept. 22.

On the last day of the Fair, Saturday, Sept. 30, a Chevrolet touring car will be given away to the holder of the lucky number. This is given in connection with the popular lady contest.

Let's all plan on attending the Yale Fair and Night Carnival at Riverside Driving Park next Wednesday, Thursday, Friday and Saturday.

THREE AMENDMENTS

At the election to be held in this state on Tuesday, Nov. 7, 1922, there will be submitted to the electors three proposed amendments to the Constitution of the state as follows:—

A proposed amendment to the constitution providing that Article XIII be amended by adding a section to be known as section 5, to read as follows:

Sec. 5. Subject to this constitution the legislature may authorize municipalities, subject to reasonable limitations, to condemn and to take the fee to more land and property than is needed in the acquiring, opening and widening of parks, boulevards, public places, streets, alleys, or for any public use, and after so much of the land and property has been appropriated for any such needed public purpose, the remainder may be sold or leased with or without such restrictions as may be appropriate to the improvement made. Bonds may be issued to supply the funds to pay in whole or in part for the excess property so appropriated, but such bonds shall be a lien only on the property so acquired and they shall not be included in any limitation of the bonded indebtedness of such municipality.

This proposed amendment, if adopted, will empower the legislature to authorize municipalities to acquire land and property in excess of that needed for parks, boulevards, streets, etc., and issue bonds for the payment of same.

A proposed amendment of section 3 of Article X, to read as follows:

Sec. 3. The legislature shall provide by law a uniform rule of taxation, except on property paying specific taxes, and taxes shall be levied on such property as shall be prescribed by law. Provision may be made by law for a tax not to exceed four per centum upon or with respect to the net gains, profits and incomes, from whatever source derived, which tax may be graduated and progressive and which may provide for reasonable exemptions. For the purpose of such tax, property and persons, firms and corporations, upon which such tax may operate may be classified: Provided, That the legislature shall provide by law a uniform rule of taxation for such property as shall be assessed by the state board of assessors, and the rate of taxation on such property shall be the rate which the state board of assessors shall ascertain and determine is the average rate levied upon other property upon which ad valorem taxes are assessed for state, county, township, school and municipal purposes.

This proposed amendment, if adopted, will authorize the enactment of an income tax law providing for a tax of not to exceed four per centum upon net gains, profits and incomes, and providing for the classification of property and persons upon which such tax may operate.

A proposed amendment to Article VIII, by adding section 30, to read as follows:

Sec. 30. The legislature may provide for the incorporation of ports and port districts, and confer power and authority upon them to engage in work of internal improvements in connection therewith.

This proposed amendment, if adopted, will authorize the legislature to provide for the incorporation of ports and port districts with power to engage in work of internal improvements in connection therewith.

IS IT? IF NOT, WHY NOT?

Our Town is the Town of Happiness. We strive for something more than business. We strive for friendliness, one with another which makes life worth while. We have a family circle in which every inhabitant counts one. Our motto is One for All and All for One. And we want to play the same game with our neighbors everywhere. Life is the game of Brotherhood, and Our Town is building on that basis.

COUNTY S. S. CONVENTION

The St. Clair County Sunday School convention, to be held in the First Presbyterian church in Port Huron Monday and Tuesday, Sept. 25 and 26, will be called upon to select a president to fill the place so long and ably filled by Reuben R. Moore, of St. Clair, who died suddenly only a few weeks ago. Mr. Moore was not only president of the county association, but of the Michigan State convention.

The convention opens Monday afternoon and continues through Tuesday afternoon. A banquet will be held Monday evening in the parlors of the First Methodist church at 6 o'clock.

The program of the convention recently published shows that the entire convention is to be mighty interesting for Sunday school workers. There will be two interesting features which will offer prizes:

A silk flag will be awarded to the district of the county which has the largest per centage of its Sunday schools represented by delegates.

A second silk flag will be awarded to the Sunday school which makes the most points for number of miles traveled by its delegates, mileage one way for each delegate to be counted.

The Sunday schools of Port Huron will provide entertainment for all delegates who desire to remain over Monday night.

Did You Ever Stop to Think—

THAT many business men should have a wider vision of modern business? A vision which will lead the way for increased opportunity and increased business?

THAT if you have a good business—Advertise, and keep it.

THAT if you want a greater business—Advertise and get it!

THAT you can make quicker profits by quick turnover of stock?

THAT if you don't have a quick turnover your stock will depreciate in value?

THAT you can't "play dead" and get anywhere?

THAT the man who hesitates too much is lost?

THAT hit-and-miss methods in business don't pay?

THAT the public wants good, reasonable merchandise at reasonable prices?

THAT if you have the right kind of goods, service and prices, you should let the people know? Advertise.

THAT advertising and service sell goods?

THAT advertising brings business?

THAT poor goods and service lose business?

THAT every customer who leaves a store without the goods he came to buy shows something is wrong with either the goods, price or service?

THAT if this happens often in a store, something is wrong with the business?

THAT somebody had better get busy and do something and DO IT NOW?

THAT Somebody has no vision of modern business methods?

—E. R. Waite, Secretary Shawnee, Okla., Board of Commerce.

THE LIVING WAGE FOR FARMERS

There is much talk now among railroad men, miners and other organized workers about the living wage.

It is an appealing phrase for the reason that men generally recognize its justice. Opinions may differ as to what constitutes a living wage, and it is inevitable perhaps, that there should be disputes now and then between the man who works and the man who pays—but few persons have the hardihood to deny the laborer's right to a decent home, with sufficient food for himself and his family, education for his children, and a bit left over to the prudent for a rainy day. The standard of income, it should be remembered, is not alone the right of the organized industrial worker. It is the right of every worker. The farmer is entitled to it. He should and does insist upon it, and he should be willing to concede it, not only to the city laborers, but to those who help him in his farming operations, whether hired hands or members of his own family. Those who will not pay the living wage cannot themselves expect to receive it. This was made clear last year when farmers producing low-priced crops under high cost conditions, were unable to keep the factories running, and the city worker found himself out of a job. The farmer did not get a living wage, and things went wrong. The business world learned its lesson and neither the business world or the farmer should forget that lesson now when wage disputes are rife. It is a good time to remember the Golden Rule. Its practical application is easy, even though it may seem to be difficult. Every worker should have a living wage, whether he is employed in city or country. The workers who as a class are a drag upon the country, and menace. The men who get more than a living wage are taking their surplus out of the pockets of some other class.

YALE SCHOOLS CROWDED

The school enrollment is much larger than it was last year at this time. There are about twice as many in the kindergarten and in the neighborhood of thirty more in the high school. The building is crowded but things are planned in such a way that the efficiency of the schools will be maintained. On the whole things are progressing smoothly, and prospects are good for a successful year of school work.
